Washington, Feb. 2.-President Mc-Kipley received a long message from Governor W. S. Taylor, of Kentucky, at Frankfort. Governor Taylor recited at length the situation in Kentucky; declared that he considered himself the legally elected executive of the state and asserted that the condition of affairs was most critical.

He said that a riot may occur at any time which will cause much bloodshed. Democratic attorneys desired to have ful of his power to control the sit lation. matter and secure peace in the state by recognizing him as the governor of ington. Kentucky. The appeal was very earnest and the administration was urgently requested to act.

vouchers in the Farmers' bank, which is a state depository, were signed by Governor Taylor in favor of some of the militia officers, who wanted money for their companies. When they were presented at the bank, payment was retused. President Rodman said that he did not see how he could pay out the money on orders signed by Governor Taylor until he knew for certain who was the actual governor of Kentucky. He had asked an opinion from the attorn y of the bank, he said, and when it was received he would act accord-

Later, Speaker Trimble posted a notice in the office of the Capitol hotel, calling members of the house to meet in one of the hotel parlors. Forty-four members only were present, and this being no quorum, an adjournment was taken. The meeting was not originally intended as much for business purposes as to serve notice on the military that ne legislature was able to meet when it chose. The notice was posted in ample time to have allowed the soldiers to prevent the gathering.

The senate also held a short caucus and nominated Senator Carter, of Anderson county, to be president pro tem of the senate, a position heretofore held

There is very little heard now about London, and there seems to be a general feeling among the Democrats and Republicans alike that the next regular meeting of the legislature will be held in the capitol building. There has been no aunouncement of any intention on the part of Governor Taylor, but it | seems to have become a tacit belief that he will rescind his action before the time set for the meeting at London.

CAPE DUICH MUST BE COWED.

Evidently Large Garrisons Needed In Cape Colony - Force Appears Large Enough to Overwhelm the Boers-Believed Buller Is Again Across Tugela.

LONDON, Feb. 2-4:30 a. m.-Mr. Wyndham's remarkable declaration in the house of commons that Great Britam will have in a fortnight 180,000 regulars in South Africa, 7,000 Canadians and Australians and 26,000 South African volunteers, is received with wonderment. Of this total of 213,000 troops, with 452 guns, all are now there, with the exception of about 18,000 that are affoat. Beyond comparison, this is the largest force Great Britain has ever put into the field. At the end of the Crimean war she had scraped together 80,000 men. Wellington, at Waterloo, had 25,000 men.

Mr. Wyndham's speech was the strongest defense the government has yet put forward as to what has been done and is being done. The general tone of the morning papers is that his figures will astonish the country. Roughly speaking, only 80,000 men are at the front. Ten thousand others have been lost and 16,000 are shut up at Lady-

Excluding these, there are 70,000 troops who have not yet been in action, in addition to those at sea. Why so many effectives have not yet been engaged is explained by the lack of land transport and the organization of supplies, in which Lord Roberts is devoting his experience and Lord Kitchener his genius for details.

It seems as though the weight of these masses must destroy the equilibrium which now holds the British forces stationary wherever they are in contact with the Boer army.

Lack of transportation and organization will not explain adequately why, when generals at the front request reinforcements, they get them in real small numbers. Knowledge is slowly penetrating to London that large garrisons must be kept in Cape Colony to hold down the Cape Dutch, who, as everyone knows, outnumber the British residents three to two.

Cable scraps received during the last 12 hours do not further illuminate the military operations. Various independent correspondents confirm the report that General Buller told his troops on Jan. 12 that he hoped to relieve Ladysmith within a week.

It is believed in some rather trustworthy quarters that he is again assailing the Doer lines.

A further list of casualties published by the war office brings the total from the crossing of the Tugela to the abandonment of Spion Kop to 1,985 officers

MILITIA IGNORES GOEBEL

His Orders To Return Home Not Obeyed-Castleman Not Appointed Adjutant General.

FRANKFORT. Feb. 2.-It was definitely decided that General John B. Castleman, of Louisville, is not to be adjutant general for Governor Goebel, and while it was asserted last night with great positiveness that he had been appointed it is said that he never was tendered the place. The name of Colonel T. J. Smith, of the Third Kentucky infantry, was prominently mentioned.

No attention whatever was paid by the militia to Governor Goebel's orders to return to their homes. It is just as though the order had never been issued. Adjutant General Collier says that no consideration will be given to any orders that may emanate from the Goebel headquarters.

Roberts' Claim Not Allowed.

WASHINGTON, Feb. 2 .- The house committee on mileage rejected the claim of Brigham H. Roberts, of Utak, for mileage. In connection with his contest for a seat in the house Mr. Roberts put in a claim for mileage from Salt Lake City to Washington, 2,597 miles, and return, at the usual rate of 20 cents a mile each way, making a total of \$1,-

Church Revival Meeting Last Evening.

Many favorable comments were passed Reverend Williams at the Christian church last night. All who heard it declared it one of the best ever preached in East Liverpool. The theme was, Did you ever see "A Cheerful Idiot?" "Three Great Questions-How can we escape if we neglect, if we refuse, if we spurn the salvation of Christ." He vividly pictured the step men often take salvation. First by simply neglecting they drift into the worse state of refusing 'Arcade, in the Diamond.

The sermon appealed to those present and touched all hearts. Reverend Williams sang the old song "Where is my wandering boy tonight," with tender sweetness. The entire service was a beautiful one and will long be remembered by all who were present.

AMATEUR LIARS.

Canon Farmer says Macrum left Pretoria because he feared for his safety. Even if that were true the canon lost no time in following his example. But how do these stories of Macram running away jibe with the stories from the same people that Macrum was on the friendliest terms with the Boers? Was he in danger from his friends? A gifted liar compels admiration for his misdirected genus but the amateur liar provokes nothing but contempt.

HONEST PRIMARIES.

At the meeting of the Republican county convention held April 19 last the following resolution, introduced by N. A. Frederick, of this city, was adopted unanimously:

WHEREAS, It is evident by the returns from the recent primaries that more votes were cast in some precincts throughout the county than there are Republicans living in said precincts, making manifest that there was more dishonest voting; and

WHEREAS, We believe that the best interests of the party demand that the purity of the ballot box should be guarded at the primary elections with as much care as at the general elections, and that each candidate should have an equal chance at getting the untrammeled support of his friends without being compelled to meet the solicitations of the hired workers of opposing candidates; therefore, be it

Resolved, First, that the central committee make a rule that hereafter all primary elections in the county shall be held under the laws of the state by what is known as the Australian ballot, and that all judges and clerks of elections be sworu to the full and fair performance

of their duties; second, that this convention request the state committee to make a like rule for all the counties of the state; third, that hereafter the hour for closing the polls at the primary nominations be not later than 6 p. m. stand-

A meeting of the county committee has been called for Friday week to fix a date for the primaries this year and such other business as may come before the committee. We can think of no more important business to occupy the attention of the committee than the carrying out of the resolution unanimously adopted by the convention last year for the purpose of giving the Republicans of Columbiana county an honest pri mary, honestly conducted and honestly counted. This can only be secured by the adoption of the Australian ballot system. The Republican voters look to the county committee to fully redeem the pledge given by the last convention.

A small but appreciative audience enjoyed the varied program at the concert given by Madame and Miss Eugenie Fry at the Young Men's Christian association hall last night under the auspices of the Ladies' auxiliary. The last number, musical declamation by Madame Fry, was the gem of the program, her Auditor A. F. Holliday, of the Ohio rendition of the favorite, "Jesus, Lover of My Soul" being excellent. Miss Eugenie Fry is a talented elocutionist and reader, her selections being most carefully chosen and admirably rendered. Her vocal numbers were also cordially approved.

SECKERSON ATTENDED.

When Officer Mahony Goes After a Councilman He Gets Him

As it had been decided to hold a special meeting of council last Friday President Peach determined that there should be a quorum. Shortly before dinner he instructed Officer Mahony to go after Seckerson and see that he got to the meeting. Mahony started out and in less than an hour returned, walk ing in the rear of the councilman, swinging his club. Councilman Seckerson said Mahony appeared at his home and after knocking at the door just walked in. When he spied the councilman he said: "The president of council sent me after yez and now I got ye bedad and I going to take you I am, I am." The officer was swinging his club in his hand and would take no assurances from the councilman that he would attend the meeting, but insisted that he accompany him down street, and the councilman had to obey. The officer made him march in front while he followed in the rear swinging his club, to the store of the president, where he delivered his prisoner. Mr. Peach and Mr. Seckerson enjoyed the affair immensely.

SIBLEY FOR EXPANSION

Opposed the Attitude of His Fellow Democrats.

RUNNING DEBATE WITH COCHRAN.

Asserted That Jefferson Was an Expansionist and Was Abused For His Stand. Declared That Providence and American Valor Gave Us the Philippines.

WASHINGTON, Feb. 2.-Mr. Sibley (Pa.), in a speech in the house, criticised his fellow Democrats for opposing the annexation of the Philippines. He had, he said, heard no argument against territorial enlargement which was not urged against the annexation of Louisiana and Texas.

Mr. Cochran (Mo.)-Is there any parallel between the territory in the Louisiana purchase, then practically without population. and the Philippines?

Mr. Sibley-Nothing has been said a sout the Philippines which was not said about the territory now Missouri. You in Missouri were classed a barbarians.

Mr. Cochran-But are the Philippines, with a population denser than Iowa, Missouri, Kansas and Nebraska available for occupa

Mr. Sibley-I think they are. When Jefferson negotiated the purchase of Louisiana he was the target of vituoeration, ridicule and reproach. From New England came such epithets as "Jacobin," 'Inhperialist." "Perverter of the constitution," yet all admit now that Jefferson acted wisely.

Mr. Coenran -Do you believe the people of the Pailippines are suscept ble of the civilization of the inhabitants of the Louisiana pur-

Mr. Sibley (amid a round of Republican applause)-I am not placing limitations upon the power of Almighty God.

Proceeding, Mr. Sibley pointed out that modern methods had brought the purchase or Texas when they were annexed.

In reply to Mr. Cochran's taunt that civilization was being shot into the Filipinos, Mr. Sibley said that the history of civilization had been traced in human blood. Wendell Philipps had said that

Mr. Sibley further said in parti

What cabinet council, what warrior; what statesman, what senator or repplan of conquest?

The cries of suffering humanity rang in our ears and we stopped our ears. The groans were heard but we answered not. We saw them stripped and wounded on our way to tention between Indiana and Illinois as Jerico, and, like the priest and the Levite, we to the run of mine differential, claimed passed by on the other side. Not unheard by the Indiana miners, and the contenthe Almighty, who, to awaken us from anathy, tion of the Illinois operators for a were those cries and groans at the throne of our almost criminal indifference, permitted | change from run of mine basis to a screen the engines of his wrath to hurl their thunderbolts under the bows of the Maine, lying peacefully at anchor in the Havana harbor. Nor keenest's ghted statesman, nor most dar ing warrior had dreamed even of the possibility of great gain, growth of greatness to come to us as a nation from that war of which the blowing up of the Maine was the first declaration. God and the valor of American arms gave us that territory not because we are a nation altogether free, altogether pure, altogether blameless but because working through him as an instrumentality, he has given it to the boldest, the freest, the most progressive, the most enlightened and the most Christian of all the nations of the present age. [Applause.]

Mr. Sibley believed the United States were designed to carry the arts of peace and the story of the cross to the remotest corners of the globe. He appealed to the Democratic side to come back to the teachings of the Democratic fathers. Expansion had been fathered and advocated by Jefferson, Jackson, Polk and Buchanan. "'Only cowards oppose it," Buchanan said, and he was the last Democratic president we have had." [Laughter] The Nicaragua canal should be built, he said, and the subsidy bill to encourage American shipping passed. China was to be dismembered. We must reach out and get our share of

its commerce. Mr. Sibley further said in part:

If this amministration shall surrender the Philippines, the historian of the future, who extols Jefferson, Madison, Tyler and Polk, will pussilanimous in the record. But this admin- company for \$50,000. In each instance write down McKinley's action as the most istration will not surrender. Its critics will be the loss is complete. forgotten. Every advance to higher and nobler forms of life has been opposed by some old, conservative moss bunker who prated of the good old days when his grandfather swung by his tail in the torest primeval.

Mr. Sibley concluded with a peroration. He received an ovation such as has not been accorded any speaker in the house this session.

DAYTON, O., Feb. 2.-A fire, which for a time threatened the manufacturing district, broke out here and resulted in damage estimated at \$500,000. Help was sent from Cincinnati and neighboring cities. The property destroyed includes the warehouses and factory of J. P. Wolf & Sons, tobacco merchants; E. Bimm & Sons, grocers; Benedict & Co., eigar manufacturers; the Dayton Paper Novelty company, and several other smaller concerns. The Big Four freight depot, situated in the rear of the above concerns, escaped destruction by reason of the slate roof, with the exception of the office building, which was gutted. The flames were practically gotten under control.

Night Watchman Snediker, while trying to locate the fire, was overcome with smoke and was found unconscious by the firemen.

Louis Swaneger, a fireman, was removed to his nome badly frozen.

Wolf & Sons, the heaviest losers, were insured for \$335,000; Benedict & Co., \$30,000, and the Dayton Paper Novelty

Later the east wall of the Wolf & Sons' building caved in, burying beneath it three firemen, George Coy, George Nienaber and George Griesheimer. Coy received injuries which will likely result in his death. The other two men were not badly hart. A hospital was opened up in a private residence near by, in which a half dozen firemen and as many volunteer workers were removed with badly frozen ears

APPEAL BY TAYLOR.

BLACKBURN WILL SEE M'KINLEY,

&s Taylor Presented His Side, the Senator Will Give That of Goebel-Practically Has Had Assurance That Federal Government Won't Act, It Is Said.

Washington, Feb. 2.-President Mc-Kipley received a long message from Governor W. S. Taylor, of Kentucky, at Frankfort. Governor Taylor recited at length the situation in Kentucky; declared that he considered himself the legally elected executive of the state and asserted that the condition of affairs was most critical.

He said that a riot may occur at any time which will cause much bloodshed. Governor Taylor said that he was doubtful of his power to control the situation. courts. To this Mr. Edelen objected, and applied to the president to end the matter and secure peace in the state by recognizing him as the governor of Kentucky. The appeal was very earnest and the administration was urgently requested to act.

It was asserted that Senator Blackburn and others will call on the president today, and present Mr. Goebel's side of the case. It was asserted that he already has been practically assured of no federal interference.

Kept Legislators Out of the State House. Got Together In Another Place, but Had No Quorum.

FRANKFORT, Ky., Feb. 2 .- When the members of the legislature attempted to enter the state house at 5 o'clock a double file of soldiers with fixed bayonets met the members at the door and turned them back. Speaker Trimble adjourned the legislature again, subject to his call.

Later, Speaker Trimble posted a notice in the office of the Capitol hotel, calling members of the house to meet in one of the hotel parlors. Forty-four members only were present, and this being no quorum, an adjournment was taken. The meeting was not originally intended as much for business purposes as to serve notice on the military that the legislature was able to meet when it chose. The notice was posted in ample time to have allowed the soldiers to prevent the gathering.

CAPE DUICH MUST BE COWED.

Evidently Large Garrisons Needed In Cape Colony - Force Appears Large Enough to Overwhelm the Boers-Believed Buller Is Again Across Tugela.

LONDON, Feb. 2-4:30 a. m.-Mr. Wyndham's remarkable declaration in the house of commons that Great Britam will have in a fortnight 180,000 regulars in South Africa, 7,000 Canadians and Australians and 26,000 South African volunteers, is received with wonderment. Of this total of 213,000 troops, with 452 guns, all are now there, with the exception of about 18,000 that are affoat. Beyond comparison, this is the largest force Great Britain has ever put into the field. At the end of the Crimean war she had scraped togemer 80,000 men. Wellington, at Waterloo, had 25,000 men.

Mr. Wyndham's speech was the strongest defense the government has yet put forward as to what has been done and is being done. The general tone of the morning papers is that his figures will astonish the country. Roughty speaking, only 80,000 men are at the front. Ten thousand others have been lost and 16,000 are shut up at Lady-

Excluding these, there are 70,000 troops who have not yet been in action, in addition to those at sea. Why so many effectives have not yet been engaged is explained by the lack of land transport and the organization of supplies, in which Lord Roberts is devoting his experience and Lord Kitchener his genius for details.

It seems as though the weight of these masses must destroy the equilibrium which now holds the British forces stationary wherever they are in contact with the Boer army.

Lack of transportation and organization will not explain adequately why, when generals at the front request reinforcements, they get them in real small numbers. Knowledge is slowly penetrating to London that large garrisons must be kept in Cape Colony to hold down the Cape Dutch, who, as everyone knows, outnumber the British residents three to two.

Cable scraps received during the last 12 hours do not further illuminate the military operations. Various independent correspondents confirm the report that General Buller told his troops on Jan. 12 that he hoped to relieve Ladysmith within a week.

THREE CREAT QUESTIONS

Discussed at the Christian Church Revival Meeting Last Evening.

Many favorable comments were passed upon the excellent sermon preached by Reverend Williams at the Christian church last night. All who heard it declared it one of the best ever preached in East Liverpool. The theme was, "Three Great Questions-How can we escape if we neglect, if we refuse, if we spurn the salvation of Christ." which often ends in utter contempt for the gospel. If it is impossible to be saved, if we simply neglect, how can we possibly be saved by hating the Christ. The sermon appealed to those present and touched all hearts. Reverend Williams sang the old song "Where is my wandering boy tonight," with tender sweetness. The entire service was a beautiful one and will long be remembered by all who were present.

SAYS WE'LL HAVE IT IN A MONTH

Ample Means, Abundant Flow and Expertenced Men Back of the Company's Efforts to Give Everybody Here All They Can Use, Domestic and Manutacturing.

Auditor A. F. Holliday, of the Ohio Valley Gas company, in an interview today, reiterated his statement of yes terday that within a month his company will be able to supply every consumer, domestic and manufacturing, with a full supply of gas. In addition to the company's pumping stations in Wash. ington county. Pa., they have opened np a new field in Greene county, Pa . 30 miles away, where they have an abundant supply with a natural flow, pumping being unnecessary. An auxiliary line is also being built to this city for use in case of emergency. The company has ample financial backing, such men as State Senator William Flinn and Mayor Diehl, of Pittsburg, being back of it. Money will be spent freely to secure for East Liverpool people all the gas they can use.

THE FRY CONCERT.

Small but Appreciative Audience Enjoyed the Program Last Night.

A small but appreciative audience enjoyed the varied program at the concert given by Madame and Miss Eugenie Fry at the Young Men's Christian association hall last night under the auspices of the Ladies' auxiliary. The last number, musical declamation by Madame Fry, was the gem of the program, her rendition of the favorite, "Jesus, Lover of My Soul" being excellent. Miss Eugenie Fry is a talented elocutionist and reader, her selections being most carefully chosen and admirably rendered. Her vocal numbers were also cordially approved.

SECKERSON ATTENDED.

When Officer Mahony Goes After a Councilman He Gets Him.

As it had been decided to hold a special meeting of council last Friday President Peach determined that there should be a quorum. Shortly before dinner he instructed Officer Mahony to go after Seckerson and see that he got to the meeting. Mahony started out and in less than an hour returned, walking in the rear of the councilman, swinging his club. Councilman Seckerson said Mahony appeared at his home and after knocking at the door just walked in. When he spied the councilman he said: "The president of council sent me after yez and now I got ye bedad and I going to take you I am, I am." The officer was swinging his club in his hand and would take no assurances from the councilman that he would attend the meeting, but insisted that he accompany him down street, and the councilman had to obey. The officer made him march in front while he followed in the rear swinging his club, to the store of the president, where he delivered his prisoner. Mr. Peach and Mr. Seckerson enjoyed the affair immensely.

There is an ordinance in effect at the present time which says how much the company shall charge for phones

SECKERSON ATTENDED.

When Officer Mahony Goes After a Councilman He Gets Him

As it had been decided to hold a special meeting of council last Friday President Peach determined that there should be a quorum. Shortly before dinner be instructed Officer Mahony to go after Seckerson and see that he got to the meeting. Mahony started out and in less than an hour returned, walk ing in the rear of the councilman, swinging his club. Councilman Seckerson said Mahony appeared at his home and after knocking at the door just walked in. When he spied the councilman he said: "The president of council sent me after yez and now I got ye bedad and I going to take you I am, I am." The officer was swinging his club in his hand and would take no assurances from the councilman that he would attend the meeting, but insisted that he accompany him down street, and the councilman had to obey. The officer made him march in front while he followed in the rear swinging his club, to the store of the president, where he delivered his prisoner. Mr. Peach and Mr. Seckerson enjoyed the affair immensely.

Claimed the Bell Company Will Not Accept the New Ordinance.

There is a possibility that the Bell telephone people will not accept the anderground franchise given them by council at the special meeting held last Friday. Parties in a position to know say that the company will object to the clauses in the ordinance which give the city an unlimited number of phones and sets the price the company shall charge for phones. There is an ordinance in effect at the present time which says how much the company shall charge for phones

Opposed the Attitude of His Fellow Democrats.

RUNNING DEBATE WITH COCHRAN.

Asserted That Jefferson Was an Expansionist and Was Abused For His Stand. Declared That Providence and American Valor Gave Us the Philippines.

WASHINGTON, Feb. 2 .- Mr. Sibley (Pa.), in a speech in the house, criticised his fellow Democrats for opposing the annexation of the Philippines. He had, he said, heard no argument against territorial enlargement which was not urged against the annexation of Louisiana and Texas.

Mr. Cochran (Mo.)-Is there any parallel between the territory in the Louisiana purchase, then practically without population. and the Philippines?

Mr. Sibley-Nothing has been said & sout the Philippines which was not said about the territory now Missouri. You in Missouri were classed a barbarians.

Mr. Cochran-But are the Philippines, with a population denser than Iowa, Missouri, Kansas and Nebraska available for occupa

Mr. Sibley-I think they are. When Jefferson negotiated the purchase of Louisiana he was the target of vituoeration, ridicule and reproach. From New England came such epithets as "Jacobin," 'Libperialist." "Perverter of the conditution," yet all admit now that Jefferson acted wisely.

Mr. Cochran -Do you believe the people of the Pailippines are suscept ble of the civilization of the inhabitants of the Louisiana pur-

Mr. Sibley (amid a round of Republican applause)-I am not placing limitations upon the power of Almighty God.

Proceeding, Mr. Sibley pointed out that modern methods had brought the Philippines nearer than the Louisiana purchase or Texas when they were annexed.

In reply to Mr. Cochran's taunt that civilization was being shot into the Filipinos, Mr. Sibley said that the history of civilization had been traced in human blood. Wendell Philipps had said that every achievement of human justice had

Mir. Sibley further said in parts

Shall we hard Porto Rico and the Phlappine archipelago? Every foot. No nation on earth has a higher right of title to a rod of soil. We hold by the double title of purchase and of conquest, and my belief is that where once the shadow of our banner has fallen there will announced. survive a race of free men, and I would hold It was sto Cuba until stability, order, good government and the protection of life and property were planted it there? What cabinet council, what warrior, what statesman, what senator or representative, what body of men formed any plan of conquest?

The eries of suffering humanity rang in our ears and we stopped our ears. The groans were heard but we answered not. We saw Jerico, and, like the priest and the Levite, we passed by on the other side. Not unheardwere those cries and groans at the throne of the Almighty, who, to awaken us from abathy, our almost criminal indifference, permitted the engines of his wrath to hurl their thunderbolts under the bows of the Maine, lying peacefully at anchor in the Havana harbor. Nor keenest's ghted statesman, nor most daring warrior had dreamed even of the possi-bility of great gain, growth of greatness to come to us as a nation from that war of which the blowing up of the Maine was the first declaration. God and the valor of American arms gave us that territory not because we are a nation altogether free, altogether pure, altogether blameless but because working through him as an instrumentality, he has given it to the boldest, the freest, the most progressive, the most enlightened and the most Christian of all the nations of the present age. [Applause.]

Mr. Sibley believed the United States were designed to carry the arts of peace and the story of the cross to the remotest corners of the globe. He appealed to the Democratic side to come back to the teachings of the Democratic fathers. Expansion had been fathered and advocated by Jefferson, Jackson, Polk and Buchanan. "'Only cowards oppose it," Buchanan said, and he was the last Democratic president we have had." [Laughter] The Nicaragua canal should be built, he said, and the subsidy bill to encourage American shipping passed. China was to be dismembered. We must reach out and get our share of

its commerce. Mr. Sibley further said in part:

If this administration shall surrender the Philippines, the historian of the future, who extols Jefferson, Madison, Tyler and Polk, Will write down mcKinley's action as the most pussilanimous in the record. But this adminstration will not surrender. Its critics will be forgotten. Every advance to higher and nobler forms of life has been opposed by some old, conservative moss bunker who prated of the good old days when his grandfather swung by his tail in the forest primeval.

Mr. Sibley concluded with a peroration. He received an ovation such as has not been accorded any speaker in the house this session.

CONCESSIONS MADE.

Ohio and Pennsylvania Operators and Miners Apparently Near an Agreement.

INDIANAPOLIS, Feb. 2. - The coal miners and operators made little progress in their deliberation. The subjoint scale committee, after being in gone from rack to rack and scaffold to session some time, decided to call a meeting of the joint committee today. It will report a partial agreement to the convention, and ask for further instructions. Just how far the committee had proceeded toward a settlement of the interstate agreement was not definitely

It was stated, however, that concessions had been made by both miners assured. I am going to echo the president's and operators which tended toward an query: "Who will haul down the flag ?" Who agreement on the price per ton between and operators which tended toward an the operators' original proposition of 9 cents and the miners' demand for 20 cents. All other differences in Ohio and Pennsylvania were said to be cleared away. There was yet considerable conthem stripped and wounded on our way to tention between Indiana and Illinois as to the run of mine differential, claimed by the Indiana miners, and the contention of the Illinois operators for a change from run of mine basis to a screen

DAYTON'S BIG FIRE.

Conflagration Which Did Damage Estimated at \$500,000-Three Firemen Hurt- One May Die.

DAYTON, O., Feb. 2 .- A fire, which for a time threatened the manufacturing district, broke out here and resulted in damage estimated at \$500,000. Help was sent from Cincinnati and neighboring cities. The property destroyed includes the warehouses and factory of J. P. Wolf & Sons, tobacco merchants; E. Bimm & Sons, grocers; Benedict & Co., cigar manufacturers; the Dayton Paper Novelty company, and several other smaller concerns. The Big Four freight depot, situated in the rear of the above concerns, escaped destruction by reason of the slate roof, with the exception of the office building, which was gutted. The flames were practically gotten under control.

Night Watchman Snediker, while trying to locate the fire, was overcome with smoke and was found unconscious by the firemen.

Louis Swaneger, a fireman, was removed to his home badly frozen.

Wolf & Sons, the heaviest losers, were insured for \$335,000; Benedict & Co., \$30,000, and the Dayton Paper Novelty company for \$50,000. In each instance the loss is complete.

Later the east wall of the Wolf & Sons' building caved in, burying beneath it three firemen, George Coy, George Nienaber and George Griesheimer. Coy received injuries which will likely result in his death. The other two men were not badly hart. A hospital was opened up in a private residence near by, in which a half dozen firemen and as many volunteer workers were removed with badly frozen ears and hands

Opposed the Attitude of His Fellow Democrats.

RUNNING DEBATE WITH COCHRAN.

Asserted That Jefferson Was an Expansionist and Was Abused For His Stand. Declared That Providence and American Valor Gave Us the Philippines.

WASHINGTON, Feb. 2.-Mr. Sibley (Pa.), in a speech in the house, criticised his fellow Democrats for opposing the annexation of the Philippines. He had, he said, heard no argument against territorial enlargement which was not urged against the annexation of Louisiana and Texas.

Mr. Cochran (Mo.)-Is there any parallel between the territory in the Louisiana purchase, then practically without population. and the Philippines?

Mr. Sibley-Nothing has been said & sout the Philippines which was not said about the territory now Missouri. You in Missouri were classed a barbarians.

Mr. Cochran-But are the Philippines, with a population denser than Iowa, Missouri, Kansas and Nebraska available for occupa

Mr. Sibley-I think they are. When Jefferson negotiated the purchase of Louisiana he was the target of viture ration, ridicule and reproach. From New England came such epithets as "Jacobin," 'Imperialist." "Perverter of the constitution," yet all admit now that Jefferson acted wisely.

Mr. Cochran - Do you believe the people of the Pailippines are suscept ble of the civilization of the inhabitants of the Louisiana pur-

Mr. Sibley (amid a round of Republican applause)-I am not placing limitations upon the power of Almighty God

Proceeding, Mr. Sibley pointed out that modern methods had brought the Philippines nearer than the Louisiana purchase or Texas when they were an-

In reply to Mr. Cochran's taunt that civilization was being shot into the Filipinos, Mr. Sibley said that the history of civilization had been traced in human blood. Wendell Pathipps had said that every achievement of human justice had gone from rack to rack and scaffold to

Mir. Sibley further said in part:

Shall we hard Porto Rico and the Phinppine archipelago? Every foot. No nation on earth has a higher right of title to a rod of soil. We hold by the double title of purchase and of conquest, and my belief is that where once the shadow of our banner has fallen there will announced. survive a race of free men, and I would hold Cuba until stability, order, good government planted it there? What cabinet council, what warrior: what statesman, what senator or repplan of conquest?

The cries of suffering humanity rang in our were those cries and groans at the throne of the Almighty, who, to awaken us from anathy, our almost criminal indifference, permitted the engines of his wrath to hurl their thunderbolts under the bows of the Maine, lying peacefully at anchor in the Havana harbor. or keenest's ghted statesman, nor most daring warrior had dreamed even of the possibility of great gain, growth of greatness to come to us as a nation from that war of which the blowing up of the Maine was the first declaration. God and the valor of American arms gave us that territory not because we are a nation altogether free, altogether pure, altogether blameless but because working through him as an instrumentality, he has given it to the boldest, the freest, the most progressive, the most enlightened and the most Christian of all the nations of the present age. [Applause.]

Mr. Sibley believed the United States were designed to carry the arts of peace and the story of the cross to the remotest corners of the globe. He appealed to the Democratic side to come back to the teachings of the Democratic fathers. Expansion had been fathered and advocated by Jefferson, Jackson, Polk and Buchanan. "'Only cowards oppose it," Buchanan said, and he was the last Democratic president we have had." [Laughter] The Nicaragua canal should be built, he said, and the subsidy bill to encourage American shipping passed. China was to be dismembered. We must reach out and get our share of its commerce.

Mr. Sibley further said in part:

If this auministration small surrender the Philippines, the historian of the future, who extols Jefferson, Madison, Tyler and Polk, will write down McKinley's action as the most pussilanimous in the record. But this admin- company for \$50,000. In each instance stration will not surrender. Its critics will be the loss is complete. forgotten. Every advance to higher and nobler forms of life has been opposed by some old, Sons' building caved in, burying beconservative moss bunker who prated of the good old days when his grandfather swung by his tail in the torest primeval.

Mr. Sibley concluded with a peroration. He received an ovation such as has not been accorded any speaker in the house this session.

CONCESSIONS MADE.

Ohio and Pennsylvania Operators and Miners Apparently Near an

INDIANAPOLIS, Feb. 2. - The coal miners and operators made little progress in their deliberation. The subjoint scale committee, after being in session some time, decided to call a meeting of the joint committee today. It will report a partial agreement to the convention, and ask for further instructions. Just how far the committee had proceeded toward a settlement of the interstate agreement was not definitely

It was stated, however, that concessions had been made by both miners and the protection of life and property were sourced. I am going to echo the president's and operators which tended toward an query: "Who will had down the flag?" Who agreement on the price per ton between the operators' original proposition of 9 resentative, what body of men formed any courts and the miners' demand for 20 cents. All other differences in Ohio and Pennsylvama were said to be cleared were heard but we answered not. We saw away. There was yet considerable conthem stripped and wounded on our way to tention between Indiana and Illinois as Jerico, and, like the priest and the Levite, we to the run of mine differential, claimed passed by on the other side. Not unheard by the Indiana miners, and the contention of the Illinois operators for a change from run of mine basis to a screen

DAYTON'S BIG FIRE.

Conflagration Which Did Damage Estimated at \$500,000-Three Firemen Hurt- One May Die.

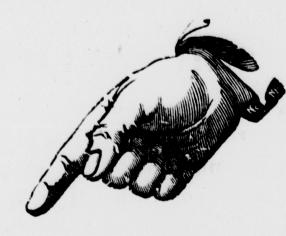

DAYTON, O., Feb. 2.—A fire, which for a time threatened the manufacturing district, broke out here and resulted in damage estimated at \$500,000. Help was sent from Cincinnati and neighboring cities. The property destroyed includes the warehouses and factory of J. P. Wolf & Sons, tobacco merchants; E. Bimm & Sons, grocers; Benedict & Co., eigar manufacturers; the Dayton Paper Novelty company, and several other smaller concerns. The Big Four freight depot, situated in the rear of the above concerns, escaped destruction by reason of the slate roof, with the exception of the office building, which was gutted. The flames were practically gotten under control.

Night Watchman Snediker, while trying to locate the fire, was overcome with smoke and was found unconscious

Louis Swaneger, a fireman, was removed to his nome badly frozen.

Wolf & Sons, the heaviest losers, were insured for \$335,000; Benedict & Co., \$30,000, and the Dayton Paper Novelty

Later the east wall of the Wolf & neath it three firemen, George Coy, George Nienaber and George Gries heimer. Coy received injuries which will likely result in his death. The other two men were not badly hurt. A hospital was opened up in a private residence near by, in which a half dozen firemen and as many volunteer workers were removed with badly frozen ears and hands

For Men's Suits & Overcoats.

Our present offerings are such as we sold earlier in the season at \$14, at \$15 at \$16, and we might say \$18, and still be within the bounds of truth. It is just like paying the regular prices and finding \$5 00, or \$6 00 or \$7.00 in the pockets. You ask why we do it. or how can we afford it. Progressive stores keep things moving Progressive stores carry no goods over from season to season. Progres-A sive stores make profits in season. Progressive stores clear counters twice a year. Counter cleaning time is here, and this is a progressive store.

Such as in profit making times graced the \$12 to \$14 counters, gives men in moderate financial circumstances a chance to dress as stylishly and as substantially as their better provided brothers. Some men wait for these chances. To these we give a bit of advice. "Wait no longer," Woolens have advanced. Stocks are melting under this low price pressure, and while we make every effort to fit and to suit all, each suit or overcoat sold decreases the assortment, for we do not fill in sizes nor buy at \$12 or \$14 this season of the year simply for the pleasure of selling at \$8.50.

It might help the more timid or the skeptical to know that we permit these suits and overcoats to be taken to any rival establishment, and if, on comparison, ours are not better, or cheaper or more satisfactory in one way or another, within 24 hours we will return the money for any article not worn or abused. Is that a fair proposition?
